

# reev ready Compact

## REEV READY COMPACT LICENCE KEY FOR ONE CHARGING POINT

The reev ready Compact licence key enables the integration of a reev ready ABL charging station into the reev Dashboard Compact. The reev software licence Compact is activated for a single charging point using the licence key. The Compact licence enables precise user and consumption control across multiple locations. In addition, it facilitates the management and control of charging stations, including evaluating and monitoring available usage information. Thanks to the intuitive online user interface, the charging infrastructure can be controlled remotely with ease. Operators can manage users via a role-based permissions concept. Drivers can also use the reev app for iOS and Android.

### General information

Model	reev ready Compact licence key
Licence period	24 months from activation; can be extended for a fee, directly in the reev Dashboard
Product number	100000188
EAN number	4011721191331
Commodity code	85235110
Packaging unit (PU)	1 unit
Packaging (dimensions HxWxD)	170 x 110 x 10 mm
Items supplied	Slipcase with Compact licence key, 2 RFID charging keys

## Range of functions

Controlled access approval	Access permissions for authorised drivers, e.g. via RFID card
Flexible user management	Create and manage user groups, e.g. company cars, employees, guests, parking space users
Monitoring & management	Clear display of location occupancy and charging operations in real time. All locations recorded centrally. Error messages can be resolved remotely
EV charging with consumption monitoring	Cost monitoring for company cars and fleet vehicles. Export charging histories for internal billing
EV charging for registered drivers	Charging for recurring, known drivers or hirers
Smartphone app for drivers	Enter payment and billing information. Access to transaction histories. Available for Android & iOS
Personal support	Telephone & written support from the reev support team
Software updates	Automatic software updates
