

## Floor channels

Perfect cable protection even with high loads

### Aluminium floor channel

#### Easy access through detachable upper part

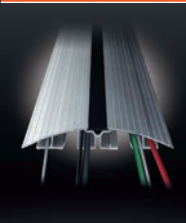

- Separate cable guidance for mains and data cables
- Anodized aluminium
- 1.8 x 12.5 x 200 cm (HxWxL)
- 2 channels - very sturdy and pressure resistant; channel elements identical in height with the lid

Illustration	Model	Length	Ref. No.
	Aluminium floor channel	2 m	7443 000 400
		6-pack: 6 x 2 m	7443 000 401

### Evoline Bridge

#### Sturdy aluminium profile, well-designed

- Incl. decor stripe
- Separate channels for mains and data
- To be screwed or glued to all floors

Illustration	Model	Length	Ref. No.
	Evoline Bridge	120 cm (with 4 cable clips)	7443 000 410
		160 cm (with 8 cable clips)	7443 000 411
		200 cm (with 8 cable clips)	7443 000 412
		Connection element corner 90°	7443 000 413
		Connection element module „T“	7443 000 414

### Cable snake Pro

#### Very stable floor channel for areas with a large number of people.

- Rounded surface
- Cables can be installed without tools (zip fastener principle)
- Tread protection up to 80 kg extended, 120 kg compressed
- Length extended 100 cm, compressed 70 cm (34 chain elements)
- 90 x 24 mm (WxH)

Illustration	Model	Specification	Ref. No.
	Cable snake Pro	black, RAL 9005	7443 000 312
		silver, RAL 9006	7443 000 313
