Kindermann

Audio – active speaker

Rear side active box set 50+

Rear side active box set 50+ IR

Kindermann active box set 50+

Our best-selling speakers – for all conference and seminar rooms

The stereo speaker set consists of an active and a passage speaker. Thanks to its very good sound quality and assertiveness, it is very well suitable for use in classrooms, meeting and training rooms, e.g. with a canvas or interactive board. The symmetrical input permits long single lines without interferences.

• Power: 30 W RMS / 50 W music

• Music and speech playback

• Inkl. wall mount and connection cable between active and passive box (3 m)

• Three audio inputs

Kindermann active box set 50+ IR

The controllable one - for better operating comfort

Thanks to the enclosed infra-red control, the RS232 interface and the wall connection fields, the set offers higher operating comfort and can be integrated into media controls as well.

• Power: 30 W RMS / 50 W music

• Control via IR remote control, RS232 interface or wall panels

• Auto standby function

• Set consisting of active and passive box

• Three wall connection/operating panels are available

Wall connection/operating panels for active box set 50+ IR

• Cat-5 cable as connection line for control, signal and voltage supply

• Suitable in-wall casing: 7441 000 007
